REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claim 1 was allowed because the prior art of reference does not teach or render obvious the total combination claimed, including a blocking bar formed on a leading end near the fusing unit of the guiding member, the blocking bar is slanted upward in a direction towards the fusing unit such that a top portion of the plurality of guiding ribs contacts with a top portion of the blocking bar, wherein a plurality of spaces between the plurality of guiding ribs are blocked by the blocking bar from a space where the fusing unit is formed.

Claim 23 was allowed because the prior art of reference does not teach or render obvious the total combination claimed, including a blocking bar disposed on a leading end of the guiding member in a proximity of the fusing unit, the blocking bar is slanted upward in a direction towards the fusing unit such that a top portion of the plurality of guiding ribs contacts with a top portion of the blocking bar, wherein a plurality of spaces between the plurality of guiding ribs are blocked by the blocking bar from a space where the fusing unit is formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
